Additional Information

Is there anything else you would like us to consider when assessing your application?	This month also has a very high electricity bill ($520), a parking fine ($129), an exam payment for my partner's university ($200), a dentist gap payment ($52). We also need to find $1000 by November for upcoming university fees. I was made redundant in Feb of this yr, using all savings and increasing debt to cover. My new job has switched my salary from monthly to fortnightly, so bills vary significantly based on when they fall in the month, sometimes a lot higher than expected. I have no buffer yet to account for this.
