

Mixed workload page 1

Fixture page 1, block 100. ZingPDF test content archive metadata extract merge rotate signature checkbox annotation revision history compress decrypt for parser and extraction coverage. ZingPDF test content metadata extract merge rotate signature checkbox annotation revision history compress decrypt catalog for parser and extraction coverage. ZingPDF test content extract merge rotate signature checkbox annotation revision history compress decrypt catalog invoice for parser and extraction coverage. ZingPDF test content merge rotate signature checkbox annotation revision history compress decrypt catalog invoice statement for parser and extraction coverage. ZingPDF test content rotate signature checkbox annotation revision history compress decrypt catalog invoice statement approval for parser and extraction coverage.

This fixture mixes text blocks and JPEG image XObjects to exercise parsing, extraction, and save paths.

Mixed workload page 2

Fixture page 2, block 100. ZingPDF test content metadata extract merge rotate signature checkbox annotation revision history compress decrypt catalog for parser and extraction coverage. ZingPDF test content extract merge rotate signature checkbox annotation revision history compress decrypt catalog invoice for parser and extraction coverage. ZingPDF test content merge rotate signature checkbox annotation revision history compress decrypt catalog invoice statement for parser and extraction coverage. ZingPDF test content rotate signature checkbox annotation revision history compress decrypt catalog invoice statement approval for parser and extraction coverage. ZingPDF test content signature checkbox annotation revision history compress decrypt catalog invoice statement approval archive for parser and extraction coverage.

This fixture mixes text blocks and JPEG image XObjects to exercise parsing, extraction, and save paths.

Mixed workload page 3

Fixture page 3, block 100. ZingPDF test content extract merge rotate signature checkbox annotation revision history compress decrypt catalog invoice for parser and extraction coverage. ZingPDF test content merge rotate signature checkbox annotation revision history compress decrypt catalog invoice statement for parser and extraction coverage. ZingPDF test content rotate signature checkbox annotation revision history compress decrypt catalog invoice statement approval for parser and extraction coverage. ZingPDF test content signature checkbox annotation revision history compress decrypt catalog invoice statement approval archive for parser and extraction coverage. ZingPDF test content checkbox annotation revision history compress decrypt catalog invoice statement approval archive metadata for parser and extraction coverage.

This fixture mixes text blocks and JPEG image XObjects to exercise parsing, extraction, and save paths.

Mixed workload page 4

Fixture page 4, block 100. ZingPDF test content merge rotate signature checkbox annotation revision history compress decrypt catalog invoice statement for parser and extraction coverage. ZingPDF test content rotate signature checkbox annotation revision history compress decrypt catalog invoice statement approval for parser and extraction coverage. ZingPDF test content signature checkbox annotation revision history compress decrypt catalog invoice statement approval archive for parser and extraction coverage. ZingPDF test content checkbox annotation revision history compress decrypt catalog invoice statement approval archive metadata for parser and extraction coverage. ZingPDF test content annotation revision history compress decrypt catalog invoice statement approval archive metadata extract for parser and extraction coverage.

This fixture mixes text blocks and JPEG image XObjects to exercise parsing, extraction, and save paths.

Mixed workload page 5

Fixture page 5, block 100. ZingPDF test content rotate signature checkbox annotation revision history compress decrypt catalog invoice statement approval for parser and extraction coverage. ZingPDF test content signature checkbox annotation revision history compress decrypt catalog invoice statement approval archive for parser and extraction coverage. ZingPDF test content checkbox annotation revision history compress decrypt catalog invoice statement approval archive metadata for parser and extraction coverage. ZingPDF test content annotation revision history compress decrypt catalog invoice statement approval archive metadata extract for parser and extraction coverage. ZingPDF test content revision history compress decrypt catalog invoice statement approval archive metadata extract merge for parser and extraction coverage.

This fixture mixes text blocks and JPEG image XObjects to exercise parsing, extraction, and save paths.

Mixed workload page 6

Fixture page 6, block 100. ZingPDF test content signature checkbox annotation revision history compress decrypt catalog invoice statement approval archive for parser and extraction coverage. ZingPDF test content checkbox annotation revision history compress decrypt catalog invoice statement approval archive metadata for parser and extraction coverage. ZingPDF test content annotation revision history compress decrypt catalog invoice statement approval archive metadata extract for parser and extraction coverage. ZingPDF test content revision history compress decrypt catalog invoice statement approval archive metadata extract merge for parser and extraction coverage. ZingPDF test content history compress decrypt catalog invoice statement approval archive metadata extract merge rotate for parser and extraction coverage.

This fixture mixes text blocks and JPEG image XObjects to exercise parsing, extraction, and save paths.

Mixed workload page 7

Fixture page 7, block 100. ZingPDF test content checkbox annotation revision history compress decrypt catalog invoice statement approval archive metadata for parser and extraction coverage. ZingPDF test content annotation revision history compress decrypt catalog invoice statement approval archive metadata extract for parser and extraction coverage. ZingPDF test content revision history compress decrypt catalog invoice statement approval archive metadata extract merge for parser and extraction coverage. ZingPDF test content history compress decrypt catalog invoice statement approval archive metadata extract merge rotate for parser and extraction coverage. ZingPDF test content compress decrypt catalog invoice statement approval archive metadata extract merge rotate signature for parser and extraction coverage.

This fixture mixes text blocks and JPEG image XObjects to exercise parsing, extraction, and save paths.

Mixed workload page 8

Fixture page 8, block 100. ZingPDF test content annotation revision history compress decrypt catalog invoice statement approval archive metadata extract for parser and extraction coverage. ZingPDF test content revision history compress decrypt catalog invoice statement approval archive metadata extract merge for parser and extraction coverage. ZingPDF test content history compress decrypt catalog invoice statement approval archive metadata extract merge rotate for parser and extraction coverage. ZingPDF test content compress decrypt catalog invoice statement approval archive metadata extract merge rotate signature for parser and extraction coverage. ZingPDF test content decrypt catalog invoice statement approval archive metadata extract merge rotate signature checkbox for parser and extraction coverage.

This fixture mixes text blocks and JPEG image XObjects to exercise parsing, extraction, and save paths.
